Powerful 50KW/120KWh hybrid energy storage solution with integrated inverter, BMS & EMS. LFP batteries, redundancy design. Expandable up to 120KWh.

Ideal for deployment in industrial parks, supermarkets, hotels, office buildings, data centers, and solar charging stations, this high-efficiency energy storage solution enables users to reduce ...

Paired with the 60K-3P-480V inverter, it provides strong PV integration capacity and flexible voltage operation for commercial and industrial ...

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load applications like factories, commercial ...

Paired with the 60K-3P-480V inverter, it provides strong PV integration capacity and flexible voltage operation for commercial and industrial applications.

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load ...

With a nominal output of 50kW and 120kWh lithium iron phosphate battery, the system supports both grid-connected and off-grid modes. Thanks to four MPPTs, a wide PV input range ...

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can ...

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can be reduced and the electricity charge ...

Installing a power storage system with renewable generators (solar/wind) can save your business money every day and provide security against grid ...

Installing a power storage system with renewable generators (solar/wind) can save your business money every day and provide security against grid failure. A battery can help offset time-of-use ...

Our 120kW/128kWh industrial and commercial energy storage system is now available for immediate sale. Featuring a long-life lithium iron phosphate core and 10ms ...

Meet the 120kW mobile energy storage power station --the Swiss Army knife of modern energy solutions. With the global energy storage market hitting a staggering \$33 billion annually [1], ...

We have seen an immediate reduction in our energy bills and a change in our power consumption patterns since we installed the PVMARS off-grid ...

We have seen an immediate reduction in our energy bills and a change in our power consumption patterns since we installed the PVMARS off-grid solar power system.
