In this article, our energy storage expert has selected the most promising energy storage companies of 2024 and demonstrates how their technologies will contribute to a smart, safe, ...

This landmark project signals a clear shift towards a more resilient, self-reliant, and sustainable energy future for the country and the ...

This landmark project signals a clear shift towards a more resilient, self-reliant, and sustainable energy future for the country and the broader region.

Jordan capacitor energy storage project The project aims to store energy with a capacity of 3,150 megawatts per hour, which is equivalent to storing electricity for 7 hours in full, which ...

Mozambique and Aiteo's refinery project will scale up to 240,000 barrels per day, making it one of the largest in the SADC region. ...

The average 2024 price of a BESS 20-foot DC container in the US is expected to come down to US\$148/kWh, down from US\$180/kWh last year, a similar fall to that seen in 2023, as reported ...

Confirmation of the project follows the Mozambique Council of Ministers' official approval of the development plan last month.

Mozambique and Aiteo's refinery project will scale up to 240,000 barrels per day, making it one of the largest in the SADC region. The refinery will reduce fuel import ...

Aiteo, one of Africa's leading energy companies, has signed a major engineering, procurement, and
