I am interested in knowing why "%20" is used as a space in URLs, particularly why %20 was used and why we even need it in the first place.

It integrates battery cabinets, battery management systems (BMS), container dynamic monitoring systems, and can integrate energy storage converters and energy ...

It integrates battery cabinets, battery management systems (BMS), container dynamic monitoring systems, and can integrate energy storage converters and energy management systems ...

Housed in a 20-foot container, this system integrates solar PV, energy storage, and advanced control components into a single unit, making it ideal for remote industries, construction sites, ...

The following is a review of the architecture, characteristics, practical applications of 20ft PV container, and its potential to revolutionize distributed energy in the future.

The following is a review of the architecture, characteristics, practical applications of 20ft PV container, and its potential to ...

I'm using Windows as a simple user (I don't have any admin rights) and want to install NodeJS LTS. On the download site I have the choice to download only the binary ...

Sometimes the spaces get URL encoded to the + sign, and some other times to %20. What is the difference and why should this happen?
