Projects Bring a Combined 600 MW of Solar and 390 MW of Battery Storage to Power 270,000 Homes and Create an Estimated 950 Construction Jobs For immediate ...

Spanning approximately 85 acres in eastern Alameda County, the 400 MW/3,200 MWh Potentia-Viridi BESS project represents the next generation of large-scale energy storage.

EnBW has announced plans to develop a 400MW/800MWh battery energy storage system at its Philippsburg Energy Park site in southwest Germany. If completed, the project ...

The world's first 400MWh energy storage project using 628Ah ultra-large cells has been successfully connected to the grid at Phase II of the Ruite New Energy Project in ...

Arevon Energy announced completion of both phases of the Eland Solar-plus-Storage Center. Eland's two large-scale solar facilities ...

Danish renewables developer Eurowind Energy on Monday announced the sale of a 400-MW standalone battery storage project in California under a plan that will provide it with ...

Canadian independent power producer Capstone Infrastructure Corp. and Danish renewables developer Eurowind Energy ...

A 185 MW solar, 400 MWh battery energy storage system (BESS) project in Lincoln County, Nevada, featuring Tesla's Megapacks has officially started operations.

Arevon Energy announced completion of both phases of the Eland Solar-plus-Storage Center. Eland's two large-scale solar facilities will capture a combined 400 MW of ...
