Canada-based solar technology and renewable energy company Canadian Solar has announced a new 5GW solar photovoltaic (PV) module production facility in the US. Being ...

American solar manufacturer Energy America has selected Texas to build a 5GW solar PV module manufacturing facility, which will be operational by the end of 2025. The construction ...

SAEL Industries Ltd. will invest INR 82 billion (\$955 million) to build a 5 GW solar cell and module plant in India. The facility will raise its ...

Canada-based solar technology and renewable energy company Canadian Solar has announced a new 5GW solar photovoltaic ...

Construction of the solar cell plant is expected to begin in mid-year 2025 with commercial production beginning in the second half of ...

On April 3, 2025, Ordos announced that LONGi's 5GW high-efficiency photovoltaic module project had delivered impressive results at an astonishing construction speed.

SAEL Industries Ltd. will invest INR 82 billion (\$955 million) to build a 5 GW solar cell and module plant in India. The facility will raise its total manufacturing capacity to 8.5 GW.

Create Energy and Shoals Technologies Group and Recom Technologies announce the formation of ReCreate, a joint venture to build a 5GW photovoltaic cell and 5GW ...

Astronergy, a subsidiary of Chint Group, has announced plans to invest \$700 million in its second photovoltaic manufacturing facility in Turkey. The new plant, located in ...

PVTIME - In its 2024 annual report, T1 Energy announced its plan to build a 5GW solar cell manufacturing facility called G2 Austin in Milam County, Texas, USA. The capital ...

On April 3, 2025, Ordos announced that LONGi's 5GW high-efficiency photovoltaic module project had delivered impressive results at an ...

Construction of the solar cell plant is expected to begin in mid-year 2025 with commercial production beginning in the second half of 2026. The site will be close to the ...

Initial module production will begin in 2026, with the plant reaching its full 5GW planned capacity in 2028. It will operate and will generate up to 1,700 local jobs.

The Avaada Group, an Indian renewable energy company, has begun construction on a 5GW solar wafer, cell and module manufacturing facility in the Indian state of Maharashtra.

Astronergy, a subsidiary of Chint Group, has announced plans to invest \$700 million in its second photovoltaic manufacturing facility in ...
