What is a complete cabinet assembly?

A complete cabinet assembly consists of: a door, a backbox, an optional battery plate, and an optional semi-flush trim ring. For each cabinet required, order one "DR" door and one "SBB" backbox. The BP2-4 battery plate is required for each cabinet assembly that mounts batteries and/or a power supply in the lower position of the cabinet.

What is a dr-a4 Cabinet Assembly?

Notifier DR-A4 A complete cabinet assembly consists of a door, a backbox, and an optional battery plate. And an optional semi-flush trim ring. For each cabinet required, order one "DR" door and one "SBB" backbox. The BP2-4 battery plate is required for each cabinet assembly.

What is a cab-4 cabinet for fire alarm control panels?

All CAB-4 cabinets for fire alarm control panels are fabricated from 16-gauge steel. The cabinet assembly consists of two basic parts: a backbox and a locking door. Cabinets are available in either black or red, with or without windows. The window model provides a tasteful combination to accent the decor of the finest lobby setting.

Do I need a BP4 or jbp2-4 battery plate?

For each cabinet required, order one "DR" door and one "SBB" backbox. The BP-4 or JBP2-4 battery plate is required for each cabinet assembly that mounts batteries and/or a power supply in the lower position of the cabinet. The optional trim ring is an attractive "picture frame"-style black metal ring.
