-----

The new CPS ESS solution integrates 125/250 kW two-hour energy storage building blocks that can be easily expanded to meet any C& I project size. Modular design minimizes the impact of ...

The container battery energy storage system effectively stores energy from solar and wind sources, enabling greater renewable penetration and grid stability. This makes our solutions ...

Ideal for use in renewable power plants. Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It can work in island mode, as a hybrid ...

Ideal for use in renewable power plants. Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging ...

A complete mid-node battery energy storage system (BESS) with everything you need included in one container - Our 250 kW/575 kWh battery solutions are used across a wide variety of ...

With a power output of 250KW and 860kWh of lithium battery storage, this system is designed for intensive operations where space, mobility, and reliability are top priorities.

As a standardized "energy package," each container provides 250kW/430kWh, and up to five units can be paralleled, enabling capacity expansion from 100-1000kW / 200-2000kWh. This ...

Integrated Container Energy Storage has emerged as the definitive solution, offering high capacity, high integration, and rapid deployment. As an innovator in power ...

AlphaESS is able to provide containerized energy storage system solutions that are stable and flexible for the
