---

The World Bank will invest in a huge 4GW, 5.12GWh solar-plus-storage complex in Malaysia, part of a pan-Southeast Asian power grid initiative. The Southern Johor Renewable ...

The project will deploy state-of-the-art floating solar technology specifically designed to address the unique shape and characteristics of the Chereh dam, optimising ...

Indonesia has announced a highly ambitious plan to build a 100-gigawatt (GW) solar power plant program, making it potentially the largest solar energy deployment in ...

After completion, the project will not only meet the growing demand for electricity in the local area, but also provide an important ...

China has brought a 1 GW offshore solar power plant online off the coast of Dongying, Shandong province, combining PV with energy storage and aquaculture in what is ...

This era focused on expanding its footprint into key growth regions, particularly Central Asia, with major agreements for nearly 900 MW of solar capacity in Uzbekistan. The strategy was clear: ...

The Australia-Asia Power Link (AAPowerLink) is a proposed electricity infrastructure project that is planned to include the world's largest solar plant, the world's largest battery, and the world's ...

The World Bank will invest in a huge 4GW, 5.12GWh solar-plus-storage complex in Malaysia, part of a pan-Southeast Asian power ...

Australia approved on Wednesday plans for a massive solar and battery farm that would export energy to Singapore, a project billed ...

The Australia-Asia Power Link (AAPowerLink) is a proposed electricity infrastructure project that is planned to include the world's largest solar plant, the world's largest battery, and the world's longest submarine power cable. Initial plans forecast that a new solar farm in the Northern Territory of Australia would produce up to 20 gigawatts of electricity, most of which would be exported...

Australia approved on Wednesday plans for a massive solar and battery farm that would export energy to Singapore, a project billed as the "largest solar precinct in the world";

Abu Dhabi's Masdar has signed a power purchase agreement for a 200-megawatt floating solar photovoltaic project at Chereh Dam, Pahang, marking its first project in Malaysia ...

After completion, the project will not only meet the growing demand for electricity in the local area, but also provide an important demonstration for the development of ...

Indonesia will build a 100 Gigawatt (GW) Solar Power Plant (PLTS). The program plans to build 80 GW of solar power plants and 320 GWh of Battery Energy Storage System ...

Indonesia will build a 100 Gigawatt (GW) Solar Power Plant (PLTS). The program plans to build 80 GW of solar power plants and 320 ...
