-----

BEU's modern campus in the Absheron region supports its mission to build the future of engineering in Azerbaijan and beyond. In partnership with Solar Universities, BEU aims to ...

Tiza Green Energy will install BESS system from Citaglobal, and this will make it possible to use a portion of the solar energy ...

As part of the 11th Ministerial Meeting of the Southern Gas Corridor Advisory Council and the 3rd Ministerial Meeting of the Green Energy Advisory Council held in Baku, ...

The course focuses on ground-mounted, grid-connected, medium and large utility scale solar farms connected to medium-voltage hydro circuits. Participants will also learn ...

Universal Solution Engineering & Consulting (USEC) is a Baku-based company that specializes in the sale and installation of photovoltaic solar panels and solar power stations.

As part of the 11th Ministerial Meeting of the Southern Gas Corridor Advisory Council and the 3rd Ministerial Meeting of the Green ...

While Baku's geographical location offers considerable potential for solar power generation on a yearly basis, environmental ...

Azerbaijan has launched the country's biggest renewable energy investment project to date: the construction of two solar plants and ...

Azerbaijan has launched the country's biggest renewable energy investment project to date: the construction of two solar plants and a wind power plant. It marks a major step in ...

While Baku's geographical location offers considerable potential for solar power generation on a yearly basis, environmental factors such as dust storms common in this area ...

Tiza Green Energy will install BESS system from Citaglobal, and this will make it possible to use a portion of the solar energy produced for the port's needs, while the remaining energy will be ...

The project, a collaboration between Citaglobal Bhd and the Port of Baku, marks the nation's first commercial renewable energy initiative integrating solar power with a Battery Energy Storage ...

Next-generation thermal management systems maintain optimal operating temperatures with 40% less energy consumption, extending battery lifespan to 15+ years. Standardized plug-and-play ...

A floating solar pilot project has just come online on Boyukshor Lake. This exciting technology reduces water evaporation and maximises land use in the heart of the city while ...

A floating solar pilot project has just come online on Boyukshor Lake. This exciting technology reduces water evaporation and ...

The project, a collaboration between Citaglobal Bhd and the Port of Baku, marks the nation's first commercial renewable energy initiative integrating ...
