How much does a solar panel installation cost?

The best way to evaluate the price of a solar panel installation is in dollars per watt (\$/W). Similar to comparing dollars per square foot when shopping for a home, \$/W helps standardize the cost of solar by showing the cost of solar on a per watt basis. Currently, the average price of a solar panel system install in the U.S. is \$2.91/W.

Where can I find information about solar panels?

Browse and compare solar panels from top manufacturers on the EnergySage Buyer's Guide. To learn about other solar energy system components, visit EnergySage's solar inverter and solar battery buyer's guides. Solar panels are the key component in any residential, commercial, or utility-scale solar energy system.

Who makes the best solar panels?

Currently, SunPower, LG, REC, and Panasonic make the best solar panels due to their high efficiencies, competitive pricing, and 25-year warranty. If you're looking for more detail, read our article that compares the top brands and solar panel products.

How efficient are solar panels?

Most solar panels today have efficiencies ranging from 15% to 20%, but some manufacturers sell panels that exceed 20% efficiency ratings. The cost of a solar panel installation varies by location, property type, and, of course, the panels used for the installation.

List of Top Verified Solar Energy Companies in Bamako, Mali, Near Me. Last updated Oct 2025
