---

This 20ft collapsible container solution features 60kW solar capacity and 215kWh battery storage. Built with robust 480W modules, it powers extended off-grid missions, from microgrids to rural ...

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock ...

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PV connections.

The Barbados installation consists of three container units, two dedicated to production and one for nursery and support. These units operate under a solar-battery ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The introduction of battery energy storage systems (BESS) facilities will greatly enhance the island's ability to integrate renewable energy into the grid, stabilise power supply, ...

EcoDirect designs and supplies solar + battery projects in Barbados. Our team has the tools and experience to get your next project designed and delivered.

BSL's off-grid battery systems are more than just a power source; they are your bridge to energy independence. They efficiently integrate renewable energy sources like solar and wind power, ...
