How much does a solar module cost in 2025?

Specifically, in August 2025, the Price Index showed: about EUR0.055/Wp for low-cost photovoltaic modules, unchanged from July prices. "Manufacturers are moving quickly to end the devastating price war. The Chinese government is gradually phasing out tax incentives and subsidized solar module exports.

How much does a solar module cost?

All Black and Bifacial modules were \$0.261/Wp and \$0.308/Wp respectively. The PV Module Price Index is a resource for solar professionals to accurately track modules traded within the secondary market. This year's report comes with some key changes to portray more precisely what's happening in the market.

How much does a low-cost photovoltaic module cost?

Low-Cost Photovoltaic Modules: Average price of EUR0.060/Wp, a decrease of 7.7% compared to the previous month. These figures underscore the significant pressures in the photovoltaic market, as price reductions strain margins to unprecedented levels.

How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.

The PV module price index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are ...

Monocrystalline ones are more efficient and slimmer in appearance compared to polycrystalline ones, though the latter type is relatively cheap. The above type of solar panels ...

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies "Thin film a-Si/u-Si or ...

SMM brings you current solar photovoltaic equipment or material prices and historical price charts such as polysilicon prices, silicon wafer prices, battery cell prices, module prices, silicon ...

The PV module price index presented by EnergyBin tracks and reports on crystalline-silicon (c-Si) module trade within the secondary market. Results are based on data collected from over 500 ...

View pricing and availability of c-Si solar panels listed for resale in the secondary market. The 2024 PV Module Price Index is presented by EnergyBin.

The analysis and cost model results in this presentation ("Data") are provided by the National Renewable Energy Laboratory ("NREL"), which is operated by the Alliance for ...

As of January 2025, solar module prices have remained relatively stable across all categories, including ultra-high-efficiency products and other module classes.

The PV module price index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional ...

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price ...

View pricing and availability of c-Si solar panels listed for resale in the secondary market. The 2024 PV Module Price Index is presented ...

Shop with us and get the best price for solar products, delivery to everywhere in Egypt. solar panels - solar lights - solar heater - photovoltaic cells - ...

SMM brings you current solar photovoltaic equipment or material prices and historical price charts such as polysilicon prices, silicon wafer prices, ...

The PV module price index presented by EnergyBin tracks and reports on crystalline-silicon (c-Si) module trade within the secondary market. ...
