Canberra is Australia's education capital, and home to our nation's best globally ranked university. Our city is placed in the top 25 student cities in the world.

Energy Storage is critical for ACT's 100% renewables and net-zero target. Helps to put downward pressure on electricity price paid by ACT consumers. Reduces the need for electricity network ...

Canberra was built to be the capital city of Australia, taking up all of Australian Capital Territory surrounded by the southeast of New South Wales. A planned city with national monuments, ...

In partnership with Eku Energy, construction is underway on concrete bases for the batteries and the main switching building at Williamsdale. The large-scale battery energy ...

A partnership between the ACT Government and global energy storage leader Eku Energy, the 250 megawatts BESS will be part of the Evoenergy distribution network. It will ...

Natural beauty is right on your doorstep in Canberra with popular lookouts, challenging hikes, mountain bike trails in the inner suburbs. Discover waterfalls, gorges, forests, and snow ...

Eku Energy has finalized financing for its 250 MW/500 MWh energy storage system in Canberra, contributing to the energy security of the ACT and its ambitious climate goals.

Australia's capital is stepping into the renewable energy spotlight with its ambitious Canberra energy storage reservoir project.

Canberra's main sporting venues are Canberra Stadium and Manuka Oval. The city is served with domestic and international flights at Canberra Airport, while interstate train and coach services ...

A partnership between the ACT Government and global energy storage leader Eku Energy, the 250 megawatts BESS will be part ...

As Australia accelerates its renewable energy transition, the Canberra 2024 Energy Storage Power Station Tender represents a pivotal moment for global energy storage providers. This ...

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize solar energy usage, stabilize grid ...

Battery storage projects are also being developed across the ACT to limit reliance on a centralized grid, including 5,000 storage batteries in homes and businesses.

Canberra is the federal capital of the Commonwealth of Australia located at the northern end of the Australian Capital Territory (ACT). With a population of approximately 350,000, it is ...

The large-scale battery storage system will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability. Enough energy to power one-third of ...

ITP Renewables was engaged by Eku Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will ...
