What is the EG4 18kpv hybrid inverter?

Introducing the EG4 18kPV All-In-One Hybrid Inverter - the ultimate power solution for any solar project! This innovative hybrid inverter combines the functionality of a grid-tied and off-grid system together while eliminating the need for charge controllers or transformers to create a convenient, independent, all-purpose powerhouse.

Which hybrid inverter is best for your solar power system?

Overall, with its easy plug-and-play installation, comprehensive certifications, and efficient management of power from solar, battery, and grid simultaneously, the EG4 18kPV All-In-One Hybrid Inverter is the ultimate solution for any solar power system.

What makes the 18K 2p a good inverter?

The 18K 2P supports more PV than any other residential inverter (over 40kW when utilizing AC coupled functionality). This power-house unit runs American engineered firmware, keeps your data stateside, and comes standard with a 10 year warranty. Don't rely on the grid, take control of your energy. Innovative. Simple. Secure.

How much does a hp inverter cost?

The total cost for a 18kW (approximately 13.5 HP) inverter, including ocean freight shipping to the nearest International seaport in the Continental USA, is \$3,699. For pricing above 5 units, please call (801) 566-5678.

Shop high-quality inverter 18kw for solar power systems. Find reliable, efficient, and affordable inverters from top suppliers. Perfect for hybrid systems.

This item is currently in high demand. Orders placed today will be fulfilled as soon as the next shipment arrives.
