---

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to achieve 1250 ...

SEA BOX"s selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source.

We offer customized containerized diesel generator sets that reliably adapt to harsh environments such as oilfields and offshore platforms.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

Marine Generating Set for Container Ship is a marine equipment set on the container ships to provide large electrical power.

We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new ...

Housed within standard shipping containers, these generators offer a seamless integration of the generator set and its associated equipment, providing a robust solution that combines ...

SEA BOX"s selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

Our marine generator sets can be used both in port and offshore. They are designed to operate under high humidity conditions and withstand the corrosion of the marine environment, ...

These systems integrate a diesel or gas-powered generator within a specially designed shipping container, creating a self-contained power generation unit that can be easily transported and ...

We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new benchmarks in footprint optimization, layout ...

Thermo King's generator set (genset) range provides the vital, independent power supply needed to maintain the cold chain in global container refrigeration. They provide dependable power ...

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or ...
