ACS, an enclosure manufacturer, provided our client with a modular enclosure used for electric vehicle battery testing.

The modular concept allows you to install the desired IPEtec test benches in a safe, CE-certified container environment. With two size options and a variety of application possibilities, ...

We offer advanced solutions for battery pack and module testing, including containerized and modular test systems. Our technology measures all critical parameters under various ...

We offer advanced solutions for battery pack and module testing, including containerized and modular test systems. Our technology measures all ...

The mobile test container, designed as a Plug& Test system, is suitable for expanding existing test capacities, as a replacement for test systems that have failed at short notice or as a cost ...

The github repository contains the data and supporting files from one cell-level mock-up experiment and three installation-scale lithium-ion battery (LIB) energy storage ...

**TEST LAB CASE STUDY VARIABLE** Our 20" ISO container contains 4 testing chambers - two cold, and two hot. With individual environmental controls, each chamber can be programmed ...

Whether you're looking to expand existing test capacities, replace failed systems, or set up new test locations, this mobile unit offers unpar...more. The Plug& Test system from ...

Engineered to the highest standards, the Weiss Technik mobile test container is equipped with state-of-the-art safety features in accordance with Hazard Level 6 battery testing.
