Who will build a solar PV plant in Cote d'Ivoire?

Abidjan, Cote d'Ivoire, August 7th, 2025 - IFC and the Government of Cote d'Ivoire today announced Infinity Power Holdings as the winning bidder to design, finance, build, and operate two grid-connected solar PV plants in Cote d'Ivoire.

Will Cote d'Ivoire have a solar power plant?

The solar power plant is then expected to be the largest in West Africa. The further expansion of solar energy in Cote d'Ivoire will primarily be realised by private investors. The successful project in Boundiali demonstrates to them that large solar projects are technically and financially feasible in similar countries.

How will a new solar power plant benefit Cote d'Ivoire?

The clean electricity generated in this way can supply 35,000 households, benefiting around 150,000 people. The new plant will save 35,000 tonnes of greenhouse gas emissions every year - an important contribution to climate protection. The solar power plant is regarded as a model project for the expansion of solar energy in Cote d'Ivoire.

Where is the first solar power plant in Cote d'Ivoire?

In Boundiali in the north of Cote d'Ivoire, the country's first solar power plant has now been inaugurated by Ivorian Prime Minister Beugre; Mambé; and German Parliamentary State Secretary Babel Kofler. The power plant has already been providing up to 37 megawatts of power since June 2023.

The Republic of Cote d'Ivoire plans to build 12 photovoltaic solar plants with a combined capacity of 678 MW across the country by 2030, and aims to reach a total capacity ...

The Boundiali solar power plant, which has now been officially inaugurated, contributes to the avoidance of

35,000 tonnes of CO2 ...

IFC and the Government of Cote d'Ivoire today announced Infinity Power Holding as the winning bidder to design, finance, build, and ...

Cote d'Ivoire is emerging as a leader in West Africa's renewable energy transition, with ambitious plans to integrate solar hybrid systems into its power grid by 2030.

The inauguration of this solar power plant serves as a powerful symbol of Cote d'Ivoire's commitment to sustainable development. It aligns with the country's ambitious goal ...

The report "Off-Grid Solar Energy Market Cote d'Ivoire" by USAID provides a thorough analysis of the off-grid solar sector in Cote d'Ivoire. It covers market opportunities, risks, and current state, ...

Cote d'Ivoire is emerging as a leader in West Africa's renewable energy transition, with ambitious plans to integrate solar hybrid ...

This initiative includes efforts to strengthen regulatory frameworks, conduct training workshops, offer technical and financial assistance to private sector companies, and foster a supportive ...

Workers have already begun installing 70,000 next-generation solar panels. The plant will generate 90 GWh annually, nearly doubling the country's solar capacity, powering ...

The Boundiali solar power plant, which has now been officially inaugurated, contributes to the avoidance of 35,000 tonnes of CO2 emissions and thus to global climate ...

The Republic of Cote d'Ivoire plans to build 12 photovoltaic solar plants with a combined capacity of 678 MW across the country by ...

The facility, covering 70 hectares, will feature 70,000 next-generation photovoltaic panels, generating 90 GWh annually, enough to ...

IFC and the Government of Cote d'Ivoire today announced Infinity Power Holding as the winning bidder to design, finance, build, and operate two grid-connected solar PV plants ...

Cote d'Ivoire is part of the World Bank Regional Off-Grid Electricity Access Project (ROGEAP), approved in 2019. The project was restructured with additional financing in 2021.
