Why do you need an uninterruptible power supply?

In order to bridge the duration of a power failure and to ensure that systems are shut down properly, uninterruptible power supplies are used. With the new TRIO DC UPS, Phoenix Contact maximizes system availability.

What kind of battery does a DC UPS use?

Our DC UPS systems for 12V /24V /48V provide an uninterruptible power supply and ensure fail-safe availability of process-critical systems and components. Maintenance-free supercaps, long-life and safe LiFePO4 and lithium-ion battery packs, or classic lead-acid batteries are used.

What is a DC-UPS with external batteries?

The DC-UPS with external VRLA batteries feature the PULS' 1-Battery-Concept: This means each battery is individually charged and monitored, which avoids the need for matched batteries and ensures longest battery life. What is a UPS module? UPS is the short version of "uninterruptible power supply".

These all-in-one UPS power supplies incorporate a DIN rail mounting switch mode power supply and UPS controller into a single unit. Customers can also buy a maintenance free battery pack ...

Provide precise DC power from an AC source with this Tripp Lite PR15 compact and lightweight power supply. The PR15 efficiently converts 120 volts AC into 13.8 volts DC.

Uninterruptible power supplies that use direct current (DC UPSs) are engineered to supply secondary power to ensure the uninterrupted ...

The AD-155A is a high-reliability 151.55W switching power supply with integrated UPS and battery charging functions. It is designed for applications requiring uninterruptible ...

Uninterruptible power supplies that use direct current (DC UPSs) are engineered to supply secondary power to ensure the uninterrupted operation of critical systems and equipment.

Provide precise DC power from an AC source with this Tripp Lite PR15 compact and lightweight power supply. The PR15 efficiently converts 120 ...

PSSWB-DC12-8A Patriot Wall Mount DC UPS 13.5VDC 8A 16 Outputs - 1x 12V 9Ah Battery 235Hx362Wx92D mm The PSSWB-DC12-8A is a high-quality wall mount DC uninterruptible ...

Our DC UPS systems for 12?V / 24?V / 48?V provide an uninterruptible power supply and ensure fail-safe availability of process-critical systems ...

Our DC UPS systems for 12?V / 24?V / 48?V provide an uninterruptible power supply and ensure fail-safe availability of process-critical systems and components. Maintenance-free supercaps, ...

RCNUN Car Power Supply 18-36V 24V to 12V 13.8V 85A 100A Step-down DC-DC Converter 24V-12V 1200W Voltage Regulator Buck Module 4.0 2 Reviews ? 13 sold \$61.36 8% off \$66.70 ...

Our series of 13.8Vdc switch mode power supplies are engineered to deliver a stable and regulated DC voltage output, making them the perfect solution for applications that require ...

Our uninterruptible power supplies are available with capacitor storage or VRLA batteries. The DC-UPS with integrated electrochemical double layer capacitors are fully maintenance free ...

With the new, third-generation TRIO DC UPS, we ensure a secure power supply and provide high system availability.
