"These battery systems are critical to supporting grid flexibility and the efficient use of renewable resources," he stated. The projects are expected to be fully operational between ...

Tesla has landed yet another massive Megapack order -- this time from Georgia Power. The utility company has submitted a plan to deploy over 3 GW (3,022 MW) of Tesla's ...

The facilities, which are scheduled to begin operation in 2026, total 765 megawatts of additional storage capacity alongside the state's ...

Georgia Power announced today that it has started construction on a battery energy storage system in Twiggs County, southeast of Macon, Ga.

The facilities, which are scheduled to begin operation in 2026, total 765 megawatts of additional storage capacity alongside the state's first-ever BESS, which began service in ...

Tesla has landed yet another massive Megapack order -- this time from Georgia Power. The utility company has submitted a plan to ...

This 530-megawatt battery energy storage system will consist of two phases, approved in the 2022 Integrated Resource Plan (IRP) and ...

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in ...

These projects are being engineered and constructed by Burns & McDonnell, and Phases I & II have
