Does ESI need long-duration energy storage in Ireland?

This position paper sets out ESI's views on the need for Long-Duration Energy Storage in Ireland and how a new procurement framework that provides a form of long-term revenue certainty is needed to support its deployment. May 2022

Does energy storage need a new procurement framework?

A recent report by the storage industry representative organisation, Energy Storage Ireland, has emphasised the need for a new procurement framework for long duration energy storage in particular, and for co-ordinated strategy and stakeholder engagement with regulatory bodies, policymakers and industry (Energy Storage Ireland, 2022).

What is the energy storage system framework?

The framework emphasises that ESS are vital to supporting Ireland's transition to a renewable energy-led electricity grid. The framework highlights three core functions of electricity storage. Electricity storage systems 10 policy actions

What changes are needed to increase energy storage development in Ireland?

The focus group participants noted several key second stage policy areas that required changes in order to increase the amount of energy storage development in Ireland. These included legislative changes, adjustments to the planning approval process, the development of forecasting models, grid improvements and the introduction of targets.

EK water cooling kits offer entry-level and expert solutions for every liquid cooling enthusiast. Get everything you need in one single box.

Discover EK's cutting-edge liquid cooling solutions at COMPUTEX 2025, Booth #M1419. Explore

high-performance cooling for PCs, gamers, and professionals from EK by LM ...

Irish grid operator EirGrid set the proposed minimum procurement for long duration energy storage procurement at 201 MW, well below its initial 2030 goal of 500 MW of storage ...

EK®, the premium liquid cooling gear manufacturer, is proud to introduce EK-Quantum Vector³, our latest line of high-performance water blocks designed to provide the ...

The Electricity Storage Policy Framework 2024, prepared by the Department of the Environment, Climate and Communications (DECC), provides a roadmap for integrating ...

New wholesale electricity market rules have been introduced in Ireland, designed to allow battery storage assets to participate directly. From 11 November, the Scheduling and ...

Summary: Ireland's renewable energy transition demands robust energy storage solutions. This article explores procurement strategies, market trends, and practical insights for businesses ...

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in ...

The EK-Nucleus AIO CR360 Direct Die D-RGB - 1700 is the first-ever all-in-one CPU liquid cooling solution for Intel® LGA 1700 socket-based CPUs with a removed IHS.

At Energy Storage Ireland 2025, the message was clear: energy storage is central to a stable, low-carbon grid, and while short-duration battery systems (BESS) are available, long ...

This brochure highlights the benefits that energy storage can bring to Ireland in terms of security of supply, electricity price reductions and renewable energy integration.

Immerse yourself in liquid cooling excellence with our comprehensive selection of EK water blocks. Our range covers every crucial component of your system, ensuring optimal cooling ...

EK AIOs are sealed units, pre-filled with liquid coolant to enable easy installation to your PC. The water block is mounted to the CPU to transfer its heat away.

The EK-Nucleus AIO CR360 Lux D-RGB is an all-in-one liquid cooling solution offering a stylish fan-like gradient lighting effect on the pump unit to suit your needs for contemporary ...
