What are containerized generator / packaged container and enclosure options?

Containerized generator /Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets,balance of plant equipment,and switchgear.

Why choose Ek generator enclosures?

In times when backup power cannot fail,EK provides durable and reliable enclosuresto keep you running. Our state-of-the-art production facilities allow customers to choose from standard generator sets or work with our engineering and manufacturing teams to build a customized enclosure to their unique specifications.

Who makes Ek fuel tanks and enclosures?

As a leading fuel tank and enclosure manufacturer in the power generation industry,the Power Products division of EKhas become the gold standard in quality,turn-around time,and customization for enclosures,fuel tanks,containers,and trailers for power generation equipment.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Our full line of containers and trailers are specifically designed to accommodate the safe and efficient transport and storage of power generation equipment. Choose from 20?, 40?, and 45? ...

Our containerized generator enclosures revolutionize the way you store and protect your valuable generator equipment. Designed with a focus on customization, versatility, and ease of use, our ...

The machine room and generator set are integrated in one container, which is very easy to operate. And the

entire power generation cost of the natural gas unit is very low.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application ...

Using our state-of-the-art production facilities, our customers can choose from a comprehensive list of standard generator sets or work with our engineering and manufacturing teams to build ...

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various ...

EK Power Products division excels in designing and constructing custom weatherproof and sound-attenuated generator enclosures, addressing both noise pollution and environmental ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...

Using our state-of-the-art production facilities, our customers can choose from a comprehensive list of standard generator sets or work with our ...

The containerised generator set offers exceptional operational flexibility and scalability to meet evolving power requirements. The modular design allows for easy integration with existing ...

Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure ...

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, ...

Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience ...
