Boasting 95% efficiency and a noise level of 67 dB, its compact design suits off-grid needs like events, construction sites, and ...

Explore scalable off-grid solar & storage systems from up to 5 MWh. Designed for EPCs, developers across Europe, MENA & the Balkans.

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

Enpack is a customized containerized microgrid solution developed by Emtel Energy, powered by Enercap, designed to function as both an EV charger ...

These mobile storage devices are typically deployed in 20-foot or 40-foot containers and are designed to seamlessly join to the grid system, manipulate extra electricity and grant ...

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public power grid and functions ...

Mobile energy storage systems have revolutionised how we approach power distribution and energy management across Europe. From supporting renewable energy ...
