Corsica Sole and Evecon are planning the construction of two battery storage power plants with a total capacity of 400 MWh in Estonia. ...

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of ...

Corsica Sole and Evecon are planning the construction of two battery storage power plants with a total capacity of 400 MWh in Estonia. They are intended to help stabilize ...

The project is designed to help Estonia, Latvia and Lithuania synchronise their electricity grids with Europe by 2025, breaking away from the historical dependency on the ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in ...

The Raba Storage Project is part of Sunly's broader strategy to add 1000 MWh of battery storage capacity to the Baltic grid by the end ...

But here's the kicker - it's not just about energy storage. This project pioneers vehicle-to-grid (V2G) integration with Tallinn's electric bus fleet, creating what engineers call a 'bi-directional ...
