New data reveals the top five companies by US operating capacity - plus a list of five major projects scheduled to go live this quarter. The US energy storage market is one of ...

Accelerated by DOE initiatives, multiple tax credits under the Bipartisan Infrastructure Law and Inflation Reduction Act, and decarbonization goals across the public and private sectors, ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

From the UK to the UEA and USA to Australia, Energy Digital Magazine runs through 10 of the most impressive energy storage projects worldwide

Discover the world's biggest battery storage projects of 2025, including BYD's 12.5 GWh system in Saudi Arabia, Greenergy's 11 GWh Atacama ...

Recently, the progress of 4 energy storage capacity and production projects has been updated.

Below is a list of the top 20 operational electrochemical energy storage projects worldwide, ranked by their energy storage capacity in megawatt-hours (MWh), showcasing the ...

Small modular reactors are reshaping nuclear power with their compact design and potential, and other top energy stories from IEEE Spectrum in 2025.

From the UK to the UEA and USA to Australia, Energy Digital Magazine runs through 10 of the most impressive energy storage projects ...

# Four major energy storage projects
