A representative from Viet Nam Electricity (EVN) also shared practical experiences in applying storage systems within the national power grid, contributing to greater flexibility and ...

This initiative combines solar power with hydrogen technology to create a 50MW hybrid energy system, positioning Hanoi as Southeast Asia's first major city adopting grid-scale hydrogen ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

By leveraging innovative solutions and collaborations, the project contributes to diversifying the nation's energy portfolio while ...

This article explores how energy storage photovoltaic power generation systems are transforming urban energy landscapes while addressing commercial and industrial demands across ...

As Southeast Asia accelerates its transition to renewable energy, Hanoi has emerged as a testing ground for cutting-edge energy storage solutions. The Hanoi Energy Storage Joint Control ...

Explore how Hanoi is balancing solar energy adoption with energy storage solutions to meet growing power demands. Discover key drivers, challenges, and real-world applications ...

Case Study: Smoothing Solar Peaks in Vietnam In 2023, Vietnam's solar generation surged by 24%, but grid congestion forced curtailment. The Hanoi station now absorbs excess daytime ...

Last April, their Hanoi-made BESS (Battery Energy Storage System for the acronym lovers) banked enough
