---

In November 2023, Guorun Energy Storage signed a cooperation agreement with the Wenzhou Municipal Government, and the annual production of 1GWh all-vanadium liquid flow energy ...

Flow batteries can discharge nearly 100% of their stored energy with minimal capacity fade, making them well-suited for high-throughput applications like industrial backup, ...

That's where Huawei's FusionSolar Flow Battery Storage enters stage left, armed with industrial-strength peak shaving capabilities specifically designed for Japan's unique energy landscape.

By replacing these liquid components with solid electrolytes, Huawei aims to significantly enhance the lifespan, safety, and ...

Even though Huawei doesn't manufacture batteries, the company is putting plenty of R& D resources into developing a new solid-state battery tech. The newest patent reveals a battery ...

Since 2023, there has been a notable increase in 100MWh-level flow battery energy storage projects across the country, accompanied by multiple GWh-scale flow battery ...

Flow batteries can discharge nearly 100% of their stored energy with minimal capacity fade, making them well-suited for high ...

Chinese tech giant Huawei has filed a new patent for a sulfide-based solid electrolyte that aims to upgrade lithium-ion batteries by replacing unsustainable liquid ...

Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers ...

Chinese tech giant Huawei has filed a new patent for a sulfide-based solid electrolyte that aims to upgrade lithium-ion batteries ...

Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra ...

By replacing these liquid components with solid electrolytes, Huawei aims to significantly enhance the lifespan, safety, and performance of batteries, particularly for ...

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres ...

Even though Huawei doesn't manufacture batteries, the company is putting plenty of R& D resources into developing a new solid-state battery tech. ...

The Chinese battery maker broke ground on a 30 GWh sodium-ion battery factory earlier this year. However, the development and design of its first utility-scale battery energy ...
