---

Situated at the Dunamenti Power Station in Székhalmabatta, the new battery energy storage system builds on MET Group's earlier 4 MW / 8 MWh demonstrator plant ...

Swiss energy company MET Group has inaugurated the largest stand-alone electricity storage system in Hungary's history. The new installation, located at the Dunamenti ...

Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system (BESS) deployments over the ...

The Hungarian government is promoting the expansion of storage capacities with a total of 230 billion forints (586 million euros) for ...

The new facility supports a growing push to green Hungary's power grid, especially as solar capacity surges. With no moving parts and a rapid response time, batteries like this are ...

Met Duna Energiatársulat, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, has inaugurated a ...

The new storage facility, for which Huawei will provide the equipment, will be eight times larger and will be one of the largest battery energy storage facilities in Central Europe. ...

Hungary has set a target of 12 GW of solar capacity by the start of the next decade. However, grid capacity shortfalls have been dire, ...

The new storage facility, for which Huawei will provide the equipment, will be eight times larger and will be one of the largest battery ...

Met Duna Energiat&#225;rol&#243;, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, has inaugurated a 40 MW / 80 MWh battery storage at the ...

Hungary has set a target of 12 GW of solar capacity by the start of the next decade. However, grid capacity shortfalls have been dire, hampering primarily the rollout of ...

Situated at the Dunamenti Power Station in Sz&#225;zhalombatta, the new battery energy storage system builds on MET Group's earlier 4 ...

Hungary will challenge EU migration and energy decisions while launching a new solar storage programme and major infrastructure projects, Minister Gergely Guly&#225;s ...

The Hungarian government is promoting the expansion of storage capacities with a total of 230 billion forints (586 million euros) for private households and businesses. Important ...

The Hungarian solar park is breaking records, but at the same time, the development of energy storage capacities is becoming increasingly urgent - this is shown by the two recently ...

Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system (BESS) deployments over the next few years.
