Highjoule delivers advanced solar and energy storage solutions in Indonesia, offering residential, commercial, and industrial systems to support sustainable energy development.

For every new 5-MWh lithium-iron phosphate (LFP) energy storage container on the market, one thing is certain: a liquid cooling ...

This advanced all-in-one solution seamlessly integrates five high-capacity 314Ah battery modules, paired with state-of-the-art liquid cooling technology, ensuring exceptional thermal stability ...

Designing a liquid cooling system for a container battery energy storage system (BESS) is vital for maximizing capacity, prolonging the system's lifespan, and improving its ...

PT Cipta Kridatama (CK), a subsidiary of PT ABM Investama Tbk (ABMM), in partnership with SUN Energy, has inaugurated Indonesia's first and largest Containerized Battery Energy ...

For every new 5-MWh lithium-iron phosphate (LFP) energy storage container on the market, one thing is certain: a liquid cooling system will be used for temperature control.

Liquid cooling systems, as an advanced thermal management solution, provide significant performance improvements for BESS. Due to the superior thermal conductivity of liquids, they ...

The liquid cooling system ensures higher system efficiency and cell cycling up to 10,000 cycles. The liquid cooling system reduces system energy consumption by 20% and extends battery ...

Solar energy generated during the day is stored in batteries and released as needed. Constructed within four

months, the solar energy system will supply electricity to ...

We are proud to announce the successful delivery of our first liquid-cooled containerized energy storage system in Indonesia, marking a significant ...

Solar energy generated during the day is stored in batteries and released as needed. Constructed within four months, the solar ...

These systems are transforming industries that rely on battery storage--think solar farms, wind energy parks, and even EV charging hubs. Unlike traditional air-cooled systems, liquid cooling ...

We are proud to announce the successful delivery of our first liquid-cooled containerized energy storage system in Indonesia, marking a significant step in our global expansion.
