Which energy provider will supply clean electricity in Israel?

Doral Group, Israel's largest and leading green electricity provider, will supply clean electricity as part of the electricity reform. The first project in Israel, located in Kibbutz Hulit in the south of the country, incorporates a 5.5 megawatt solar field and a world-leading energy storage system

Will Enlight build Israel's largest wind power station?

In June 2018, Enlight received permission to build Israel's largest wind power station, to be completed in 2020-2021. The plant, located in the Valley of Tears, will generate 96-99 MW of electricity. However, due to various factors, the project achieved full commercial operation in the end of the third quarter of 2023.

What is the first Agri-voltaic project in Israel?

The first project in Israel, located in Kibbutz Hulin in the south of the country, incorporates a 5.5 megawatt solar field and a world-leading energy storage system. Doral's Agri-voltaic projects are the first projects in Israel to integrate smart joint usage of land in one area.

What is Enlight doing in Israel?

In August 2011 Enlight entered into agreements with six communities in the Golan Heights to construct wind turbines on their land, subject to regulatory approval and clearance from Israel's Ministry of Defense. Enlight led the development of the Halutziot project, one of Israel's largest solar energy undertakings, in the western Negev.

Enlight Energy was founded by Gilad Yavetz, Zafir Yoeli and Amit Paz. The company joined the Tel Aviv Stock Exchange in June 2010 through a reverse merger with Sahar Investments Ltd. Sahar, which prior to the merger was a shell company belonging to Shaul Elovitch's Eurocom Group, subsequently changed its name to Enlight Renewable Energy Ltd. In 2013 the company received approvals for the Halutziot solar site with 55
