Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

This analysis supplements prior studies and evaluates the extent to which diverse types of emerging long-duration energy storage (LDES) and multi-day energy storage (MDS) ...

Section 1557 is the nondiscrimination provision of the Affordable Care Act (ACA). The law prohibits discrimination on the basis of race, color, national origin, sex, age, or disability in ...

Overview The Department of Health and Human Services has published a revised Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against ...

Figure 2 shows several energy storage technologies and their suitability for distributed applications including pairing with distributed solar photovoltaic (DPV) power generation.

Redefining energy resilience at the community level, distributed energy storage systems (DESS) represent a fundamental shift from centralized grid dependency to localized power sovereignty.

Protections for Individuals with Limited English Proficiency Consistent with longstanding principles under civil rights laws, the final rule makes clear that the prohibition on ...

Our mission at the HHS Office for Civil Rights (OCR) is to ensure that people have equal access and opportunity to participate in HHS-funded programs. We focus on reducing ...

SAMPLE LANGUAGE ACCESS PROCEDURES: In accordance with Section 1557, this document describes [insert name of covered entity"s] process for providing language assistance services ...

Part of our work is focused on reducing the barriers for individuals with limited English proficiency (LEP) and helping covered entities to understand and comply with their ...

Distributed energy storage (DES) is defined as a system that enhances the adaptability and reliability of the energy grid by storing excess energy during high generation periods and ...

The Roadmap provides a framework and set of proposals to achieve 6 GW of energy storage on the electric grid by 2030. The Roadmap analysis recognizes the critical role for energy storage ...

Leap is the leading platform for generating new value from distributed energy resources (DERs) through integration with energy markets.

OCR enforces Title VI of the Civil Rights Act of 1964 (Title VI) and Section 1557 of the Affordable Care Act (Section 1557), which prohibit entities receiving HHS-provided federal financial ...

In its decision, the Commission directed NYSERDA to modify the Implementation Plan to allow for resources that participate in the New York Independent System Operator ...

Long-duration energy storage (LDES) is a cost-effective option to increase grid reliability and resilience so that reliable, affordable electricity is available whenever and wherever to everyone.
