-----  
What is the price of electricity in Mozambique?

In Mozambique, the price of electricity is 0.127 U.S. Dollar per kWh for households and 0.080 U.S. Dollar for businesses. This includes all components of the electricity bill such as the cost of power, distribution, and taxes.

What energy sources are available in Mozambique?

Mozambique has abundant energy sources available for exploitation. As of 2021, the country was ranked first in energy potential of all the countries in the Southern African Power Pool (SAPP), with an estimated energy capacity of 187,000 MW. Available energy sources include coal, hydroelectricity, natural gas, solar energy and wind power.

Does Mozambique have a high energy demand?

Mozambique's domestic energy demand is increasing steadily and is expected to continue rising as the country industrializes. The Southern African Development Community (SADC) member countries are expected to have higher demand for power that could be met with Mozambican exports.

How much power does Mozambique have?

As of 2019, Mozambique had 2,185 MW of installed hydroelectric generation capacity, accounting for 92 percent of total national installed capacity of 2,375 MW. The 2,075 megawatts Cahora Bassa Hydroelectric Power Station (CBHPS) across the Zambezi River, is the largest power station in Mozambique.

Electricity prices are regulated by ARENE and are progressive (inclining block rates). Since 2012, electricity prices are subsidised, as the average cost of supply exceeds the average selling price.

The global high-voltage household energy storage system (HVES) market is experiencing robust growth, driven by increasing electricity prices, rising concerns about climate change, and the ...
