It is a versatile but complex product that will allow various functions of implementation; be it to increase a mini-substation's capacity, perform as a simple UPS unit or as an integrated off-grid ...

In addition to government efforts, several local and international organizations are actively working to promote off-grid solar, mini-grids, and clean energy solutions in Namibia.

In a specially converted fuel-efficient and brightly branded Suzuki van, nicknamed "Zuki," by the Namibia team, we are distributing solar lights, Zafi solar chargers and Zeri power banks across ...

HOPSOL Africa is a technology leader for on- and off-grid solar power plants, fuel save controllers as well as solar diesel hybrid systems at utility scale (e.g. mining solutions). ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

In a sparsely populated country like Namibia, decentralised energy solutions will be much faster and less expensive to deploy than the grid, allowing people living in hard-to-reach ...

Currently just over 3% of Namibia's population use solar to light their homes. Many people living off-grid in rural and peri-urban areas rely on paraffin candles and kerosene lamps for lighting. ...

From hybrid systems that prioritise solar power and use the grid only as backup, to fully off-grid setups for total energy independence, our solar solutions are designed for long-term ...

The 40ft energy storage container adopts an off-grid solar solution and is equipped with a 770kWh battery
