What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

What is a battery module & pack?

Battery modules and packs for applications with high energy and/or power requirements such as grid stabilization, light trucks and energy storage. Robust battery containers with batteries and charging solutions for construction, maritime, grid, and other hard-to-abate industries.

When will we start manufacturing battery packs?

With this as initial funding, we will set up an agile, fully automatic industry 4.0 assembly plant in Kongsberg, ready to produce customized battery packs by 2024. In 2022, we will profitably deliver climate-friendly new and re-manufactured (second-life) battery solutions.

Nordic Batteries specializes in the assembly and manufacturing of advanced battery packs and energy systems tailored to the maritime sector and rigorous industrial applications.

The low power consumption is thanks in part to the ultra-low power characteristics of the nRF54L15 SoC, including Nordic proprietary technologies such as low-leakage RAM and ...

Battery modules and packs for applications with high energy and/or power requirements such as grid

stabilization, light trucks and energy storage. Robust battery containers with batteries and ...

The "eufy Smart Lock E30" employs Nordic Semiconductor's nRF52840 SoC to power the Matter-over-Thread connectivity, enabling users to lock and unlock their smart lock via any Matter ...

An integrated RISC-V coprocessor can run software-defined peripherals and handle time-critical tasks. With innovative technologies emerging - like Channel Sounding in Bluetooth 6.0 - ...

We design and manufacture battery packs tailored to your machines. Whether you need a specific geometry, voltage, or performance profile, we build the right solution for your application. Built ...

nRF Cloud provides Device Management, Device Observability, and Location Services for Nordic devices. Get started free and manage, update, monitor, and debug your devices remotely.

We design and manufacture battery packs tailored to your machines. Whether you need a specific geometry, voltage, or performance profile, ...

The Nordic Energy battery pack is compatible with all e-bike front lights in the Nordic series. With this simple solution, you can easily add a Herrmans e-bike front light to your bike, whether you ...

Nordic Batteries enable the green shift by assembling and manufacturing battery packs and energy systems customized for maritime and ...

Nordic Batteries enable the green shift by assembling and manufacturing battery packs and energy systems customized for maritime and demanding industrial applications. Nordic ...

The Nordic Battery Pack Modules Market size was valued at USD 1250 Billion in 2024 and is projected to reach USD 2702.39 Billion by 2033, growing at a CAGR of 8.93% during the ...

Cellular IoT Wi-Fi Bluetooth Low Energy Nordic Product Guide [Click to download PDF](#)

It offers battery packs and energy storage systems, designed to power various applications and drive businesses forward. Its products are primarily used in the construction, aquaculture, ...

Nordic Batteries enables the green shift by assembling and manufacturing battery packs and energy systems, customized for maritime and demanding industrial application.

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the acquisition of its long-term partner, Memfault Inc., the market-leading cloud ...
