What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

What is the Nordic battery value chain?

The battery value chain builds upon Nordic traditional strongholdssuch as automotive, maritime, chemicals, manufacturing and mining. Actors within the Nordic battery ecosystem are active on global markets with strong ambitions and devotion to sustainability.

What is the Nordic battery collaboration?

The Nordic Battery Collaboration is a key initiative. The decision to carry out this report was taken by Business Sweden, Business Finland, Innovation Norway and the Swedish Energy Agency together. All parties are financing the report. The report is conducted by Business Sweden.

Does Norway have lithium-ion storage batteries?

At the time, Europe did not yet have any grid-scale lithium-ion storage batteries. Since then, Norway has successfully installed nearly 3 GW of battery capacity, connecting with the UK and German markets via interconnections and harnessing its vast hydropower resources.

HiTHIUM, a global leader in long-duration energy storage technology, has signed a multi-year supply agreement (MSA) with Bertel O. Steen Power Solutions (BOS Power) to ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

BOS Power and HiTHIUM sign a 3GWh battery energy storage agreement to support renewable projects across the Nordic region, marking a significant step in sustainable ...

BOS Power and HiTHIUM sign a 3GWh battery energy storage agreement to support renewable projects across the Nordic region, ...

Norway aims to be a leader in the battery storage market in the Nordic region, but Sweden and Finland have surpassed it in BESS ...

This study investigates the long-term availability of lithium (Li) in the event of significant demand growth of rechargeable lithium-ion batteries for supplying the power and transport sectors with ...

HiTHIUM signs a 3GWh battery energy storage supply agreement with BOS Power for projects across Denmark, Sweden, ...

HiTHIUM signs a 3GWh battery energy storage supply agreement with BOS Power for projects across Denmark, Sweden, Finland, and Norway, enhancing renewable integration ...

Chinese energy storage specialist Hithium has signed a major supply deal with Norway-based EPC contractor Bertel O. Steen Power ...

Chinese energy storage specialist Hithium has signed a major supply deal with Norway-based EPC contractor Bertel O. Steen Power Solutions (BOS Power) to deliver 3 ...

Norway aims to be a leader in the battery storage market in the Nordic region, but Sweden and Finland have surpassed it in BESS deployments. Jon Ferris, an analyst at ...

As Europe's battery energy storage system (BESS) market rapidly expands, battery capacity has now surpassed 20 GW. While Norway once set ambitious goals to become the ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including ...

Battery Energy Storage Systems (BESS) lead the Nordic energy storage market in 2025, making up about 40-50% of the total market value. Lithium-ion technologies head this ...

This report maps out the Nordic battery value chain and highlights key necessities of the Nordic ecosystem on how to grasp the opportunity of sustainable batteries
