The purpose of its work is to develop structural design rules for glass components in a stepwise procedure that finally should result into a new Eurocode on design of structural glass.

Since the beginning of 2021, CEN/TS 19100 Design of Glass Structures has been available in its first three parts. The fourth part is ...

ASTM worked with the National Glass Association to compile this essential list of ASTM glass and glazing standards to serve as a comprehensive resource. It encompasses the most widely ...

Without standardization for the use of glass as a structural material, Authorities Having Jurisdiction (AHJs) have had various responses, ranging from leaving it to the experts ...

Since the beginning of 2021, CEN/TS 19100 Design of Glass Structures has been available in its first three parts. The fourth part is expected soon. This Technical Specification ...

BS EN 1279-1 is part one of a multi-series of European standards on insulating glass units in building which covers generalities, system description, rules for substitution, tolerances and ...

Experts unveil critical updates on codes and standards shaping the glass and glazing industry, emphasizing advocacy, security and sustainability. Engineers and architects follow code ...

Abstract1 Introduction2 Concept and Structure of CEN/TS 191003 Technical Content of CEN/TS 191004 Concluding Remarks and OutlookData AvailabilityAcknowledgementsAuthors and AffiliationsEthics DeclarationsSince the beginning of 2021, CEN/TS 19100 Design of Glass Structures has been available in its first three parts.
