## Why did Digicel Samoa launch 5G?

The decision to launch 5G technology underscores Digicel Samoa's dedication to providing high-speed connectivity and exceptional network experiences for its customers. By partnering with Nokia, a global leader in telecommunications technology, Digicel Samoa aims to upgrade its cell tower sites, starting with those in Apia CBD.

## What happened at Vodafone Samoa's 5G launch?

Vodafone Samoa unveiled the soft launch of its 5G network on Monday afternoon at the Taumeasina Island Resort. The event drew a notable audience, including government officials, international guests, and Vodafone Samoa's team, marking a key step in the evolution of the nation's telecommunications infrastructure.

## When did Digicel Samoa complete its LTE network?

Digicel Samoa completed its LTE network in September 2020. Digicel Samoa's financially troubled parent company, Digicel Pacific, had been on the lookout for a potential buyer for several months as it struggled financially.

## Does Vodafone Samoa have 5G?

Vodafone Samoa remains committed to advancing Samoa's digital infrastructure, emphasising its role in driving technological innovation and economic growth. 5G, the fifth-generation technology standard for cellular networks, follows the previous 4G technology.
