The company's long-term strategy centres on building an integrated clean energy portfolio that combines solar, wind, and biogas power with advanced storage systems to ...

State-owned power utility Elektroprivreda Srbije (EPS) and the Government of Serbia plan to develop a 500 MW wind farm project with a strategic partner, according to ...

Turkish renewable energy producer Fortis Energy said it will develop a 110 MWp solar photovoltaic (PV) plant with an integrated 31.2 ...

Storage: Large-scale deployment of variable/intermittent renewable power sources--i.e., wind and solar power--make grid balancing more challenging and can ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, in the northern Serbian municipality of Sid.

Let's cut to the chase: when you hear "Serbia energy storage power station", do you imagine giant Tesla Powerpacks humming in a field? Well, think bigger. Serbia's leap into ...

This hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil ...

Serbia plans to build solar power plants, wind farms, and pumped-storage hydropower plants, but also gas-fired power plants, energy storage batteries, and hydrogen facilities, in order to ...

Turkish renewable energy producer Fortis Energy said it will develop a 110 MWp solar photovoltaic (PV)
