Qair is implementing the project in partnership with local renewable energy firm Vetiver Tech. A first in Seychelles and a regionally significant project. This floating solar power plant is the first ...

As a floating solar PV project, it also offers an innovative solution to the land constraints faced by island nations like Seychelles, unlocking clean energy generation without ...

As the first IPP utility-scale project in Seychelles and one of the largest floating solar PV projects in Africa, it represents a significant milestone for the region.

Discover why a folding container house is the ultimate earthquake shelter. Learn about its durable, seismic-resistant design, rapid 10-minute installation, and versatile uses in ...

As the first IPP utility-scale project in Seychelles and one of the largest floating solar PV projects in Africa, it represents a significant ...

What is a mobile solar PV container? High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. ...

This article examines the role of solar containers in earthquake response, their deployment benefits, and field deployments of how they ...

As a floating solar PV project, it also offers an innovative solution to the land constraints faced by island nations like Seychelles, ...

Independent renewable energy company Qair has officially launched construction of the Seysun Lagoon

Floating PV plant, an ambitious 5.8 MW project located in the ...

Independent renewable energy company Qair has officially launched construction of the Seysun Lagoon Floating PV plant, an ...

Developed by Qair, a French renewable energy company, the floating solar project is expected to be commissioned in 2026 and will connect to the 33 kV grid infrastructure of the ...

This article examines the role of solar containers in earthquake response, their deployment benefits, and field deployments of how they provide clean and reliable power ...

According to Mr. Wills, Agricole, Principal Secretary of the Minister of Environment, Energy and Climate Change, by using Floating Photovoltaic (FPV), Seychelles wants to maximize their ...

Developed by Qair, a French renewable energy company, the floating solar project is expected to be commissioned in 2026 and will ...
