Double Glass Durability - increased durability, weather-resistances, UV resistant and withstand high temperatures and strong wind loads. Longer Life Span - high durability increases overall ...

Cell Size: Each solar cell measures 91x182mm, optimized for maximum energy conversion and efficient use of space in your solar system.

565W~585W Key Features High Efficiency Leading module efficiency in industry, up to 22.6%

Advantages of double-glass structure: It enables bifacial power generation with a high ratio, maximizing light utilization and exhibiting excellent ...

This 585W module outperforms traditional P-type modules with higher power output and enhanced durability. Equipped with N-type solar cells resistant to light-induced ...

Double Glass Durability - increased durability, weather-resistances, UV resistant and withstand high temperatures and strong wind loads. Longer ...

NEW TECHNOLOGY WITH DUAL GLASS BIFACIAL MODULES Positive power tolerance upto +4.99 Wp

The SP585M-72H module harnesses the power from both sides of the panel with a rear-side power gain of 5%-25%, which maximizes energy generation and optimizing space utilization.

Advantages of double-glass structure: It enables bifacial power generation with a high ratio, maximizing light utilization and exhibiting excellent mechanical properties.

Single crystal double glass 585 module size

Featuring advanced 16-busbar (16BB) half-cell technology and a durable double-glass bifacial design, this module delivers higher energy yield, long-term reliability, and lower levelized cost ...

The SP585M-72H module harnesses the power from both sides of the panel with a rear-side power gain of 5%-25%, which maximizes energy ...

Philadelphia Solar's Mono-Crystal-line N-type modules with power up to 585Wp are produced using the state-of-the-art (automated) robotic production lines. ese modules are suitable to be ...

The LONGi LR5-72HGD-585M is a high-power, bifacial glass-glass solar module built with n-type TOPCon cells and a nominal output of 585 Wp. It delivers ?22.6% module efficiency (based on ...
