Many utilities have embraced gas, or promoted restarting closed coal or nuclear plants, but that overlooks the cheapest and fastest ...

In 2024, generators added a record 30 GW of utility-scale solar to the U.S. grid, accounting for 61% of capacity additions last year. We expect this trend will continue in 2025, with 32.5 GW ...

Many utilities have embraced gas, or promoted restarting closed coal or nuclear plants, but that overlooks the cheapest and fastest-to-build option - solar energy combined ...

The 150 MW Andasol solar power station is a commercial ...

Hundreds of sheep graze among the panels at the Sherco Solar power plant in Minnesota, which is slated for a major solar plus storage expansion (cropped, courtesy of ...

One of the most effective and increasingly popular solutions is integrating Battery Energy Storage Systems (BESS) with your solar PV installation. But when exactly is BESS ...

Premier Resource Management (Bakersfield, CA), in partnership with the National Renewable Energy Laboratory, will develop a 100-kWe demonstration power plant with more ...

Modern storage systems do far more than just provide backup power. They optimize your energy usage, help you avoid high utility rates, and contribute to a more ...

Short-term storage that lasts just a few minutes will ensure a solar plant operates smoothly during output fluctuations due to passing clouds, while longer-term storage can help provide supply ...

During the summer of 2024, Orange and Rockland Utilities (O& R) and Sunrun, a home solar panel and battery storage company, successfully launched New York's largest ...

In conjunction with Orange and Rockland Utilities (O& R), a wholly owned subsidiary of Consolidated Edison (ConEd), Sunrun has successfully activated the largest ...

The 150 MW Andasol solar power station is a commercial parabolic trough solar thermal power plant, located in Spain. The Andasol plant uses tanks of molten salt to store captured solar ...
