What is a lithium ion solar battery?

Engineered with cutting-edge technology, these batteries provide a reliable and efficient energy storage solution for your solar power system. With their high energy density and excellent charge retention, lithium ion solar batteries ensure you make the most of your solar-generated power, even during periods of low sunlight.

What is a RB60 lithium phosphate battery?

The RB60 lithium iron phosphate battery is a safer, lightweight alternative to lead-acid in your marine, solar, RV, or other deep cycle applications. Weighing under 20 pounds and 60 amp hours means a full day of power for small trolling motors or for a long day on the road in your RV.
