The national energy utility of Namibia, NamPower, has broken ground on the Southern African nation's largest solar PV project to date. ...

Namibia is taking a monumental step towards a sustainable energy future. NamPower, the country's national power utility, has ...

Upon completion, the power station will contribute significantly to the national energy mix, displacing a significant amount of imported energy and reducing reliance on fossil ...

The national energy utility of Namibia, NamPower, has broken ground on the Southern African nation's largest solar PV project to date. The 100MW Sores IGaib Power ...

The national electricity utility of Namibia, NamPower has started construction of the Sores Gaib solar power station in Rosh Pinah, Namibia. The solar photovoltaic (PV) plant will ...

Namibia is taking a monumental step towards a sustainable energy future. NamPower, the country's national power utility, has commenced the construction of a massive ...

Upon completion, the power station will contribute significantly to the national energy mix, displacing a significant amount of imported ...

NamPower, Namibia's national power utility, has broken ground on a 100 MW solar project, its largest to date. The Sores Gaib ...

Namibia is set to break ground on the construction of the 100 megawatt (MW) Sores-Gaib Power Station. The project, led by the state power utility NamPower, will be the ...

The power station is under development by Namibia Power Corporation Limited (NamPower), the Namibian state-owned electric utility company. When completed, this renewable energy ...

Valued at roughly N\$1.6 billion (US \$88 million), the photovoltaic plant is set to become the country's biggest solar facility and its first utility-scale project developed entirely by ...

Namibia's state-owned national power utility, NamPower, has begun construction on a 100 MW solar project, set to become the country's largest to date. The Sores |Gaib solar ...

Namibia's state-owned national power utility, NamPower, has begun construction on a 100 MW solar project, set to become the ...

Namibia is set to break ground on the construction of the 100 megawatt (MW) Sores-Gaib Power Station. The project, led by the state ...

On 19 June 2025, NamPower officially commenced construction of the 100 MW Sores |Gaib Solar PV Power Station, marking its largest solar power ...

On 19 June 2025, NamPower officially commenced construction of the 100 MW Sores |Gaib Solar PV Power Station, marking its largest solar power project to date. The groundbreaking ...
