-----  
Do I need a power adapter in Suriname?

Since Suriname also uses Type A and B outlets, you won't need a power adapter for your devices if they match these types. However, you may need a voltage converter if the device does not support 127V or 230V. Ensure your devices are ready as you explore the vibrant streets of Paramaribo or the beautiful nature reserves like Brownsberg Nature Park.

What is the mains voltage in Suriname?

The standard voltage in Suriname is 127V /220V at a frequency of 60Hz. Do I need a power plug adaptor in Suriname?

What type of electrical outlet does Suriname use?

Suriname primarily uses Type A, Type B, Type C, and Type F electrical outlets. These types are common in many North American, European, and some Asian countries. Type A has two flat parallel pins. Type B has two flat parallel pins and a grounding pin. Also known as the standard "Euro" plug, Type C outlets have two round pins.

What type of plug is used in Suriname?

Also known as the standard "Euro" plug, Type C outlets have two round pins. Also known as "Schuko," Type F outlets have two round pins with two earth clips on the side. The standard voltage in Suriname is 127V or 230V, and the frequency is 60Hz.

Suriname Travel Adaptors Voltage Converters and Transformers Dual Voltage Rated Appliance Single Voltage Rated Appliances You will need to consider what to pack, to ensure you can use your personal electrical appliances safely whilst abroad. This normally includes the use of a travel adaptor, which is a device that simply allows you to plug any UK electrical appliance into a foreign electrical socket. It is important to note that it does not convert the voltage or frequency. See more on electrical safety first .uk. [b\\_ans](#) [.b\\_mrs](#) {width:648px; contain-intrinsic-size:648px}
