Who is lithium system?

LiTHiUM System, formerly LiTHiUM Storage GmbH, headquartered in Illnau, Switzerland, has been supplying customers throughout Europe with high-quality lithium iron phosphate (LiFePO₄) batteries since 2010. As one of the first in Europe we have added NMC cells with a high energy density to our assortment.

Who makes lithium batteries?

LiTHiUM System works closely with partners in the immediate vicinity for the quantitative and qualitative production of prototypes. The lithium batteries from LiTHiUM System GmbH have already received several international awards, such as the 360 degree MOVE Award.

What is a lithium battery?

Lithium batteries are CATL brand, whose LFP chemistry packs 1 MWh of energy into a battery volume of 2.88 m³ weighing 5,960 kg. Our design incorporates safety protection mechanisms to endure extreme environments and rugged deployments. Our system will operate reliably in varying locations from North America to sub-Saharan Africa.

Why are lithium-ion cells used in electric vehicles?

Thanks to fully automatic production, the lithium-ion cells have a constant quality and are used in thousands of electric vehicles around the world around the clock. As an exclusive distribution partner for Europe, we are also able to supply smaller quantities of less than 10,000 professional cells and modules.

Experience the future of sustainable energy with our Solar Container Energy Storage System. Designed for solar power plants, this innovative solution combines advanced Lithium battery ...

Explore our range of high-quality swiss zurich power tool solar container lithium battery, and ensure you're ready for your next adventure!

Experience the future of sustainable energy with our Solar Container Energy Storage System. Designed for solar power ...

Types of BESS o Lithium-ion batteries: These containers are known for their high energy density and long cycle life. o Lead-acid ... Discover the advantages and disadvantages of cylindrical ...

Engineered to complement solar folding containers, our lithium-ion battery systems deliver dependable power storage with fast charge/discharge capabilities. Their modular architecture ...

As a leading cylindrical lithium battery manufacturer in Zurich, we combine Swiss engineering with global energy needs. Whether you're optimizing EV performance or creating smarter energy ...

Chliss Off Grid Solar Power System Lifepo4 Lithium Ion Battery Containerized Energy Storage System Container Essential details

A lithium-ion battery storage cabinet is a secure containment and charging solution specifically designed by DENIOS for Lithium-Ion batteries. These cabinets offer comprehensive ...

It is the global volume leader among Tier 1 lithium battery suppliers with plant capacity of 77 GWh (year-end 2019 data). Range of MWh: we offer 20, 30 ...

Lithium-based batteries form the basic offer of LiTHiUM System GmbH in Illnau. Depending on the application, we evaluate the appropriate cell chemistry and the most suitable battery size.

It is the global volume leader among Tier 1 lithium battery suppliers with plant capacity of 77 GWh (year-end 2019 data). Range of MWh: we offer 20, 30 and 40-foot container sizes to provide ...

Enter container lithium battery systems, the energy storage equivalent of a Swiss Army knife. These modular powerhouses are transforming everything from solar farms to mobile EV ...
