Energy Vault has launched its FlexGrid energy storage system in Switzerland, securing contracts with Schindler Group and Energie Wettingen AG. A 2 MW/2-hour system is ...

ETH Zurich, EPFL, PSI and Empa launched the Coalition for Green Energy & Storage (CGES) in 2023 demonstrator projects for new scalable technologies

Switzerland's new EUR2 billion energy storage initiative isn't just another infrastructure project - it's a moonshot combining hydropower tradition with cutting-edge tech. Let's unpack ...

The Coalition for Green Energy and Storage (CGES) is an initiative led by ETH Zurich and EPFL that aims to provide sustainable solutions for Switzerland's climate and energy crises.

As the Alpine glaciers slowly melt away, Switzerland will have the opportunity to build new dams and artificial lakes in the mountains. This will increase energy storage capacity ...

With the Zurich Energy Storage Project 2024, the country takes another leap toward achieving its 2050 net-zero targets. This project focuses on large-scale battery storage systems designed to ...

This is not only a record-breaking flow battery (redox) energy storage system in terms of scale but also a symbol of the upcoming transformation of Europe's energy landscape.

Battery energy storage PCS solution for EKZ, one of Switzerland's largest energy companies BESS 1 MW / 250 kWh PCS solution at the Dietikon Power Plant in Zurich, Switzerland.

The new professorship "Electrical Energy Storage Systems" seeks to develop advanced storage technologies
