The proposed novel air conditioning system consists of a solar-assisted system integrating a PTC coupled to a vapor compression refrigeration cycle operating based on ...

Taiwan has a long period of sunshine over the year and air-conditioning has become an indispensable asset. In the past, air-conditioners used electricity from power plants. Solar ...

Experimental study of dehumidification performance and solar thermal energy enhancement properties on a dehumidification system using desiccant coated heat exchanger

Taipei, special municipality and seat of government of Taiwan (Republic of China). It is situated on the Tan-shui (Danshui, or Tamsui) River, almost at the northern tip of the island ...

Taipei is Taiwan's economic, political, and cultural center. It is a modern cosmopolitan metropolis with a lively and diversified face, filled with exuberance.

This master thesis evaluates the performance of a solar-assisted air conditioning system in Taipei, focusing on its functionality under local climate conditions.

Explore vibrant night markets, historic temples and hot springs in our Taipei travel guide. Get expert tips on food, culture and adventures in Taiwan.

This study integrates solar technology, heat pump technology, phase change energy storage, and rotor dehumidification to offer an innovative solution for summer cooling, characterized by ...

Here is the best of Taipei in anticipation of its newfound access, including how to get there, the best things to

do in Taipei, and where to eat and stay.

As a first-time visitor to Taipei, these are some things you'll most likely want to do. The above map shows all the places I'll mention in this article.

From fabulous food recommendations to several short day trips from Taipei, we've got you covered with tons of Taipei activities (including some rather weird and wonderful ...

Today, Taipei in Taiwan is a dynamic city where historic temples, vintage tea houses, and Japanese-era architecture sit side-by-side with bustling night markets, neon-lit ...

In this work, a novel solar photovoltaic-thermoelectric air conditioner (SPVTEAC) for local air conditioning of a 1 m³ office room was experimentally examined under several ...

A food-loving, culture-packed guide to the best things to do in Taipei. From cozy neighborhoods to markets & must-visit local spots.

Solar-powered air-conditioning systems, particularly hybrid solar cooling systems, offer a promising sustainable solution. These systems synergistically integrate photovoltaic ...

Air conditioning system with intelligent charging management that optimizes energy efficiency through solar-powered charging. The system comprises an indoor unit and at ...
