-----

The 8-slots battery exchange station can support up to 7 users simultaneously, completing battery replacement in just 2 minutes. This significantly reduces vehicle downtime and boosts ...

Offering rapid battery swaps, robust power management, and compatibility with various electric vehicles, these advanced battery swap systems ...

Offering rapid battery swaps, robust power management, and compatibility with various electric vehicles, these advanced battery swap systems feature IP55-rated protection, intelligent BMS ...

Innovate the modular battery swap mode of "vehicle and electricity separation". Relying on intelligent battery compartment, Internet of Things real-time monitoring system and cloud ...

BITEAN intelligent battery swapping cabinet is designed to solve the slow charging and charging safety problems of low-speed electric vehicle, and solve the transportation capacity problem ...

The battery replacement can be achieved inside the replacement cabinet with common simple operations. When a battery is inserted into the empty receptacle of battery ...

After putting it in, the battery swap cabinet will automatically pop up a battery or a cabinet door, so that a fully charged battery can be obtained, and the battery swap process ...

With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than ...

The system utilizes a dynamic power allocation strategy to prioritize charging power to batteries with low battery levels, ensuring safe and efficient battery swap ...

After putting it in, the battery swap cabinet will automatically pop up a battery or a cabinet door, so that a fully charged battery can be ...

The intelligent power exchange cabinet solves the problem of long battery charge turn-around time through battery sharing and battery exchange modes. It replaces the battery with a ...

Featuring intelligent controls, high safety standards, and user-friendly operation, the station adopts a modular design that supports multiple battery specifications and enables fast, ...
