---

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. ...

The goal for this project is to integrate BESS into an electrical distribution microgrid on MCAGCC. The project installs and fully permits new BESS capable of parallel ...

The project will see the installation of 10 megawatts (MW) of solar photovoltaic (PV) capacity and 10 MW of large-scale battery energy storage, which is projected to reduce ...

Executive Summary: Sub-10 MW battery energy storage systems (BESS) are gaining traction in ERCOT as developers capitalize on regulatory flexibility and reduced ...

SMT Energy introduces the first BESS project in Dallas, adding a 10 MW/15 MWh standalone storage system to the ERCOT grid.

As global renewable energy adoption accelerates - particularly in solar-rich regions like California and Germany - the need for 10 MWh battery solutions has surged 300% since 2020.

DALLAS, July 31, 2025 /PRNewswire/ -- SMT Energy has energized SMT Dallas, a 10 MW / 15 MWh standalone battery energy storage system (BESS), making it the first BESS project ...

Discover the largest battery storage projects in the U.S. for 2025, including Darden, Bellefield, and Swiftsure.

This initiative highlights the practical application and benefits of modern battery storage technology. In this article, we explore the specifics of this 10 MW battery storage project, ...
