---

From residential distributed systems to utility-scale PV-plus-storage projects, the Thai market is accelerating towards maturity and diversification--projected to sustain double-digit annual ...

ADB and Gulf Renewable Energy Company Limited, a subsidiary of Gulf Energy Development Public Company Limited, have signed an \$820 million loan to provide ...

Focusing on projects such as large and medium-sized cabinets for battery energy storage systems, they will invest in building a 15,000-square-meter Phase II workshop to ...

GoodWe, a global leader in solar and energy storage solutions, has announced the successful commissioning of a 6.5 MW solar-plus-storage system at the Panasonic ...

The increased solar and energy storage targets could sustain the forecasted electricity demand increase from data centres and EV ...

Thailand's 2024 plan increases renewable energy, highlighting crucial battery storage systems for buildings and power generation.

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, ...

Wenergy offers advanced intelligent energy storage systems, while TCE brings deep local market insights and expertise. Together, they are addressing Thailand's unique energy challenges, ...

The increased solar and energy storage targets could sustain the forecasted electricity demand increase from data centres and EV charging in the coming years.

Wenergy offers advanced intelligent energy storage systems, while TCE brings deep local market insights and expertise. Together, they are ...

With ongoing deployment of variable renewable energy technologies, such as solar and wind power, the opportunities for energy storage projects will increase. Long-term ...

This tropical paradise isn't just about pad thai and full moon parties anymore - it's becoming Southeast Asia's new energy storage powerhouse. With renewable energy ...
