---

Anglo-Tunisian group SoleCrypt announced plans for a 60 MW PV plant in Tozeur, part of a broader initiative to connect eventually to the Medusa submarine cable, enhancing ...

This landmark project will be the first large-scale privately financed grid-connected solar independent power producer in the country and will support the government of Tunisia's ...

This surge is positioning Tunisia as one of North Africa's most dynamic emerging solar markets, with potential to reshape its energy mix and strengthen regional power links.

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW. France's ...

Three of the projects, each with a capacity of 100 MW, are being developed by French companies Qair International SAS and Voltalia SA and Norwegian company Scatec. ...

AMEA Power's 120MW solar PV plant marks the first project to reach commercial operations in Tunisia, as other projects of 100MW or more are expected to be built in the ...

Two new solar photovoltaic (PV) plants are set to be constructed in Tunisia, helping the country reduce its reliance on fossil fuels.

The launch of the 1.3 GW solar initiative marks a major milestone in Tunisia's renewable energy journey. It demonstrates the government's commitment to transitioning to a ...

Construction Commences on 120-MWp Kairouan solar photovoltaic project in Tunisia by AMEA Power. The significance of Tunisia's solar project contracts is unprecedented ...

This milestone injects robust momentum into the region's green energy development. The project is located in Kairouan, central-eastern Tunisia, with a total installed ...
